

Frequently Asked Questions

What should I bring in with me to get a quote?

- A floor plan of the room or house plans with measurements of doors and windows; Atlantic Designs will “job site verify” before ordering.

When should I come in?

- As soon as you think about building or remodeling! Coming in early will give you time to get your design right and get a feel for time lines and pricing.

Do I need to make an appointment?

- An appointment is always helpful to make sure you can get the one-on-one attention you need, but feel free to stop by any time and see our showroom.

How much do I need to budget?

- There are many variables that can affect the price of your kitchen or bath, such as wood species, door style, and construction – just to name a few. We offer free design & quoting, and will price more than one line for you, in order to give you more choices and options.

How long does it take to receive my kitchen once it's been ordered?

- The average kitchen is five weeks from order to installation. Installations can vary in length, depending on the countertop choice, size of project, and amount of detail. We have a custom line that can take up to 12 weeks, so be sure to plan early!

Do you do my design on a computer?

- Yes! We have all of our manufacturers in our design program, allowing us to easily make changes. Because of this, you can price different door styles and print pictures of your kitchens to take with you!
